## PROFESSIONAL EXPERIENCE

### Software Development Consultant

May '19 - Present

#### Intellect Design Arena

Chennai,India

- Built a product "Commercial Loan Origination" which helps in onboarding corporate clients and gathering required information from them before giving out a loan, along with a team of 10 and was involved in all parts of the SDLC. This product is implemented in 2 of the popular private banks in the country.
- Designed and developed various reusable components with Angular in the product with CRUD capabilities by integrating them with REST APIs.
- Built additional/add-on features within shorter time spans by gathering requirements from the Business team for showcasing the product capabilities to various customers.
- Fixed critical and serious bugs by considering the impact it has on the existing flow and without disturbing the system.
- Follow up with other interface teams to ensure that deliverables are met the deadline.
- Trained and guided freshers in the team regarding the best practices while coding and made them familiar with the product workflow and helped them wherever required.

### Associate Software Engineer
